SUMMARY

Highly effective **MERN Stack** Developer and 2026 MCA Graduate specializing in architecting scalable, full-stack web applications. Expertise includes optimized **React.js** state management, securing **RESTful APIs** with **JWT**, and integrating real-time features using **Socket.io**. Proficient in leveraging **AI-powered development tools** like **Codex** and **Antigravity** to streamline development and optimize resource utilization. Proven success in enhancing UI/UX components to drive quantifiable business results, including a 25% increase in user engagement during internship experience.

EXPERIENCE

Digiluma

Web Development Intern — Jan 2026 - Present

- Architected and maintained scalable **MERN stack** applications, optimizing UI/UX components to drive a 25% increase in user engagement and ensure 99.9% application uptime.
- Engineered performance-critical site enhancements, refining **React.js** state management and implementing **CI/CD** pipelines, resulting in a 30% reduction in application latency.

EDUCATION

Master of Computer Applications — **2024 - 2026**

GL Bajaj Institute of Technology And Management | AKTU

Bachelor of Computer Applications — **2021 - 2024**

Vinoba Bhave University | VBU

SKILLS

Frontend	Backend	Databases & Cloud	Tools
React.js, Redux, Next.js, HTML5, CSS3, Tailwind CSS	Node.js, Express.js, RESTful APIs, JWT, Socket.io, Microservices, Python, Java	MongoDB, Mongoose, MySQL, PostgreSQL, AWS, Firebase	Git, GitHub, CI/CD, Jest, TypeScript, Antigravity, Codex, AI Coding Assistants

PROJECTS

Travel Assist Portal — **June 2025 - Nov 2025**

- Engineered a full-stack Travel Assist Portal using **Node.js** and **MongoDB** to establish **real-time geolocation-based** connectivity, successfully reducing **service alert latency**.
- Integrated secure **JWT-based role-based access control (RBAC)** and **real-time bi-directional communication** using **Socket.io** for instant service alerts.
- Accelerated development and optimized code quality by leveraging **AI-powered tools** such as **Codex** and **Antigravity**.

Campus Placement Management System — **Dec 2025 - April 2026**

- Developed a centralized Campus Placement Management System using **MERN stack**, **Socket.io**, and **Face API**, automating recruitment workflows and integrating secure **Facial Authentication** and **Google OAuth** for streamlined access.
- Implemented **real-time notification modules** and **data-driven tracking**, achieving a 40% increase in recruitment efficiency and 45% improvement in student placement readiness through **performance analytics**.

CERTIFICATIONS

- Basics of Business Communication - Infosys Springboard — **Feb 2025**
- AI Skills Passport - Microsoft AI Skills — **Oct 2025**
